PROFESSIONAL SUMMARY

Remediated critical OT vulnerabilities across 6 industrial units—now driving cyber defenses with precision, compliance, and automation. Security-focused IT professional with 3 years of experience in OT security, incident response, and enterprise systems. Adept at SIEM monitoring, ISO 27001 compliance, and risk mitigation. Skilled in Python, SQL, Power BI, and GRC tools, with a focus on automation, threat detection, and proactive defense strategies.

KEY SKILLS

- **Networking Basics:** TCP/IP, subnetting, DNS, routing protocols (BGP, VLAN, VPN)
- **Operating Systems:** Windows, Linux
- **Security Tools:** Archer GRC, Power BI
- **Scripting:** Python, SQL, JavaScript
- **Incident Response:** Threat detection, event correlation, OT alert triage
- **Security Frameworks:** ISO 27001
- **Soft Skills:** Technical writing, cross-functional communication, stakeholder engagement, cultural sensitivity
- **Languages:** English, German (B2 - in progress), Hindi, Kannada, Tamil

WORK EXPERIENCE

Intern OT security

Evonik, Marl, North Rhine Westphalia

Jun 2024 – Jul 2025

- Investigated OT security alerts and remediated 20+ vulnerabilities across 6 units (SIEM, Log Analysis, Vulnerability Management)
- Built Power BI dashboards integrated with Archer GRC (Governance, Risk and Compliance) for compliance tracking cutting manual effort by **40%** (Power BI, GRC Tools, ISO 27001)
- Conducted OT security training and aligned controls with ISO standards (Cyber security Awareness, ISO 27001, Risk Mitigation)

Systems Engineer

Infosys, Mysore, Karnataka

Apr 2021 – Sep 2022

- Maintained legacy mainframe systems with zero SLA breaches (Java, REXX, Mainframe Support)
- Automated backend processes, improving efficiency by 25% (Process Automation, Batch Jobs)
- Built predictive analytics model for fraud detection in legacy systems (Data Analysis, Fraud Risk)

Tutor

Whitehat Jr (BYJU'S), Mumbai

Oct 2020 – Apr 2021

- Tutored 100+ high school students in JavaScript, C, and Math through Whitehat Jr (JavaScript, C, Algebra, Logic Building)
- Guided 15+ web design and game development projects using interactive platforms (HTML/CSS, Game Design, Project-Based Learning)

EDUCATION

Information and Communication Engineering | Master of Science

Oct 2022 – Aug 2026

Technische Universität Darmstadt, Darmstadt, Germany

Electronic and Communication Engineering | Bachelor of Technology

Aug 2016 – Aug 2020

K.S Institute of technology (VTU), Bangalore, India

ACADEMIC PROJECTS and SEMINARS

“Efficient Implementations of Neural Networks on FPGAs”

Master’s Thesis | Guide - Prof. Dr.-Ing. Grace Li Zhang

- Developed optimized CNN models (VGG-16, ResNet) for hardware deployment by reducing computation complexity while preserving model accuracy (Deep Learning, FPGA)
- Designed a structured compression pipeline combining basis sharing, shift-based operations, and quantization to enable efficient hardware execution (Model Optimization, Hardware Acceleration)
- Evaluated performance trade-offs across multiple model variants to achieve a balance between accuracy and computational efficiency for real-world deployment (Performance Analysis, Edge AI)

“Automated Semantic Diffing of Websites with LLMs”

- Developed LLM-based system for detecting web-based cyber threats via semantic diffing (LLMs, NLP, Cyber security)
- Automated DOM-level and contextual drift detection for vulnerability tracking
- Enhanced threat intelligence using NLP, HTML parsing, and structural diff analysis (Threat Hunting, Structural Diffing, Web Integrity Monitoring)

“Defect elimination via advanced analytics”

Innovation Lab | Femtec | P&G

- Built predictive model in Data bricks to detect scrap root causes from manufacturing data (Delta Lake)
- Collaborated with P&G to optimize defect elimination using big data analytics (Time-Series Data)
- Applied process mining, predictive modeling, and data cleaning for root cause analysis (Anomaly Detection, Data Preprocessing, Statistical Modeling)

“Insight Update”

Bachelor’s Thesis | Guide - Prof. Dr. P N Sudha

- Built IoT-based RFID attendance system in Python (RFID, IoT, Python)
- Enabled real-time absentee alerts via SMS/email (SMTP)
- Achieved 80% accuracy boost in attendance reporting (Data Logging, Embedded Systems)

LEADERSHIP EXPERIENCE

Vice President IGTA, AIESEC (LC Frankfurt)

Nov 2025 - Ongoing

- Managed and coordinated IGTA activities with a focus on talent management, team performance, and organizational development, while leading team members through goal setting, performance feedback, and professional and personal development support.

FEMTEC - Career-Building Program for High-Potential Women

Jun 2023 - Sep 2024

- Leading a diverse team of 25 people within an innovation lab with Procter & Gamble, with experience in German work culture and interdisciplinary collaboration

Recognized for academic excellence, leadership, and community service

- SWAYAM Student Volunteering Champion (2020) and Best Student of the Chapter (2019), while representing VTU in interzone sports (2019), serving in IEEE (since 2017), ISTE (2020), and NSS leadership including Karnataka State RD Parade (2019).

CERTIFICATIONS

- IOT workshop | Microsoft
- Python for Data Science and AI | IBM
- Cyber security compliance frame work and system administration | IBM
- CySecurity+ (compTIA- ongoing Course)
